

# Artificial Grass Easy Installation Guide

1.

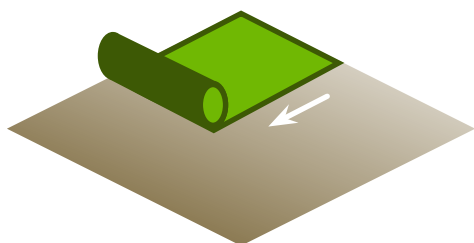

Remove any plants or shrubs, and create your hardcore or sand base

2.

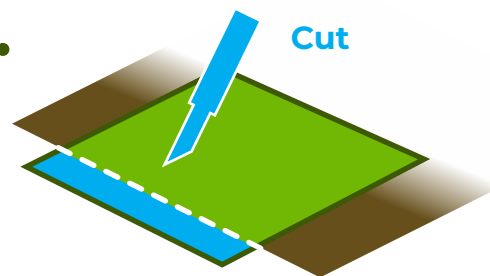

Level your area and slightly compact. Optionally you can lay a weed suppressant membrane too

3.

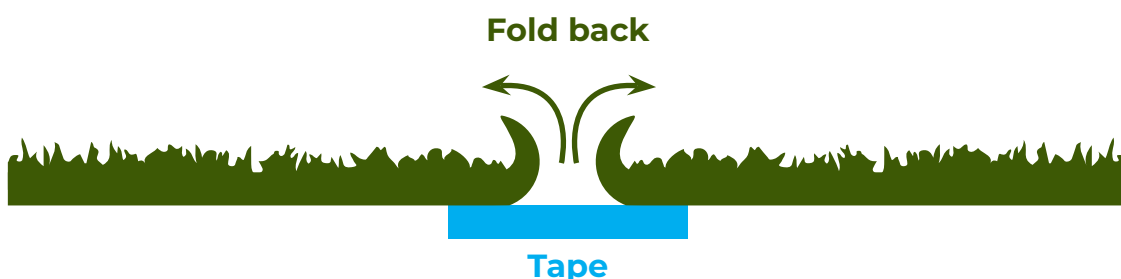

Lay your rolls of grass starting from a corner

4.

Trim any excess roll that overlaps the area you are wanting to be covered

5.

Fold over the edges between sections of grass and then lay your fixing tape underneath, to ensure a seamless finish

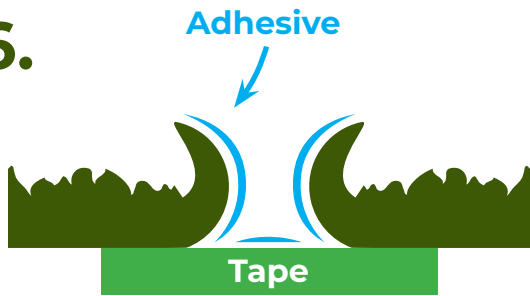

Step 6.

# Artificial Grass Easy Installation Guide

6.

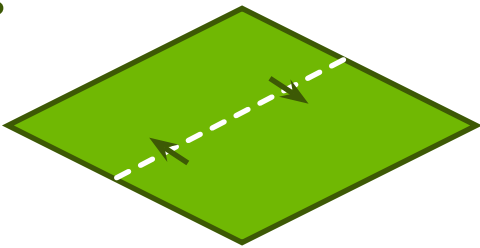

Apply your adhesive on the folds and tape to ensure a smooth and even stick

7.

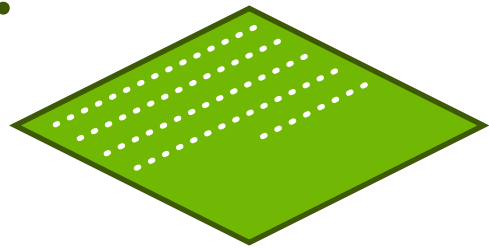

Fold the edges back over and allow the adhesive to stick naturally

8.

Apply pressure to the seams and slightly shuffle to mask any joins

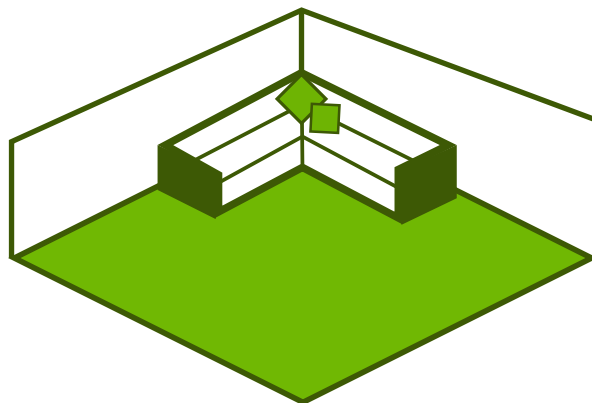

9.

Apply sand to your grass area and brush evenly into the grass

10.

Enjoy your new garden!

## Benefits of artificial grass

Elite UV protection - Pet friendly - Natural look
