

Delivery

Delivery of this garden building is usually very easy and straightforward.

Each product page has an approximate delivery schedule set out. In fact, for a lot of our garden buildings, delivery time is often much quicker than stated. If you would like your garden building to arrive on a specific date (although this cannot guaranteed) please contact us.

If a quick delivery of stock garden buildings is required we will always try to accommodate you - for further information on delivery please contact us on: 0845 258 1900.

At least 24 hours before delivery you will always be contacted and be given the date and approximate time of delivery. If more notice is required - please let us know when ordering.

Provided the following points can be met delivery is free of charge to UK mainland addresses (There will Occasionally be Delivery Charges to Remote Areas - Especially in Scotland). (Please call: 0845 258 1900 for more Information)

- Delivery is made by a six wheeler truck (England South of the M62 Leeds to Manchester Motorway and Wales) or Artic Truck (England North of the M62 Motorway and Scotland) with a "piggy-back" forklift on board to unload your garden building.
- Sufficient space is required for this vehicle to unload and operate if you are unsure or concerned please contact us on **0845 258 1900** If there is insufficient space which prevents the garden building from being off-loaded a delivery charge may apply.
- Delivery is kerb side: our drivers are very helpful and will always try to position the garden building as conveniently as possible however because the forklifts are very heavy - it is entirely at the drivers discretion whether or not it is appropriate to drive onto your property and always at your risk when they do.
- During off-loading customers or their representative must be available to receive the garden building if so required.
- It is important that you insert at least one, but preferably two telephone numbers in the telephone number box when ordering. At least one day prior to delivery our Transport Department will contact you to provide as accurate a delivery schedule as possible. You will always be contacted prior to delivery.

Cabins are delivered in a weather proof wrapping and can stand outside quite adequately for a reasonable period of time (however the exception to this would be if the Cabin is delivered on a smaller vehicle and has to be off-loaded manually it would therefore be un-packed).

If you are unsure or concerned about delivery or any other aspect of the Cabin please contact us on: **0845 258 1900**
